

U-Blocks

The U-Block is used to convert the external dimensions of Insert Blocks, AddBlocks and Spare Blocks to the next modular size.

For example a 30/15 Insert Block can be enlarged by placing it into a U40, giving the new size of 40/15.

This is how U-Blocks are used

Regardless of cable diameter, you can retain the outer measurement of the block in any row.

With U-Blocks, you can easily center the cable or pipe in your RGP installation.
