

SeaTelecom (STC) is the solution to the demand for affordable onboard communication for ships. Thanks to the simple, yet well-considered concept of the systems, well-functioning communication equipment can be delivered to seagoing vessels at a very competitive price level.

- Excellent price-quality ratio (both telephone and PA)
- STC meets the onboard demands
- 72 analogue lines connected in standard system
- Peripheral equipment ready for delivery within 24h

STC-804

PART OF STC-PUBLIC ADDRESS

Description:

- Flush mounting microphone panel
- Gooseneck microphone
- Push to talk button
- NC contact for disconnecting alarm bells when speaking
- NO contact for switching speakers in 100V circuit
- NO contact for muting VSS system
- All contacts max. 3A
- Standard delivered with 5 mtr. microphone cable and XLR-plug
- Black anodised aluminium front with resopal cover plate

Technical data:

• Impedance	500 Ohm
• Frequency range	150-12000Hz
• Weight	0,9 kg
• Sensitivity	2.2mV / PA / 1kHz
• Dimensions microphone	28x385mm
• Dimensions panel (HxWxD)	130x120x60mm
• Panel cut-out	80x100mm

Terminal Connections:

- 0: Screen
- 1-2: Signal output
- 3-4: NC contact for disconnecting alarm bells
- 5-6: NO contact for switching 100V circuit
- 7-8: NO contact for muting VSS system.
